coverstory
BY GEORGE DICKIE

Tina Turner is profiled in "Tina," premiering Saturday on HBO and HBO Max.

HBO's 'Tina' paints an intimate portrait of a music superstar

Music fans who think they know Tina Turner's story may find a few surprises in a documentary upcoming on HBO and HBO Max.

The two-hour film "Tina," premiering Saturday, March 27, gives an unvarnished account of the life and six-plus-decade career of the iconic performer of such hits as "Better Be Good to Me," "The Best" and "What's Love Got to Do With It," looking at her early rise to fame in the late 1950s, her professional and personal struggles in the 1970s and her rousing comeback in the '80s.

Through never-before-seen footage, audio tapes, personal photos and intimate interviews with Turner at her home in Zurich, Switzerland, the film from Oscar-winning documentarians Dan Lindsay and T.J. Martin ("Undeclared," "LA 92") paints a picture of a woman whose personal strength and faith saw her through hard times that included a loveless relationship with her mother, an abusive marriage and subsequent divorce from her former music partner Ike Turner and sexism and racism in the music industry, to become a global icon with platinum records, multiple Grammy Awards and a slew of other accolades to her name before retiring in 2008.

It's ground that's been covered before in print, movies (the 1993 feature "What's Love Got to Do With It") and theater (Broadway's recent "Tina: The Tina Turner Musical"), only here the story is told from Turner's point of view. And both filmmakers hope that gives those familiar and not-so-familiar with her story a new understanding of the artist.

"A lot of the theme of the film is ownership," Martin explains. "Ownership over her being, over her body, ownership over her name and ultimately ownership over her narrative. Her ability to, even when she kind of felt like she was getting control of her life again by giving the narrative to the world, all of a sudden the world had a little bit more control in the perception of what her story is. And so I think the hope amongst many is coming away from this film, you get a little bit more insight into Tina's own point of view of her story."

One thing she makes clear in the documentary is that she doesn't dwell on the past, particularly her marriage to Ike. While she had her first professional success with him, she also experienced much physical and emotional abuse. When they divorced in 1978, he got everything except Tina's name. And that proved to be the most valuable asset by far.

Ultimately, this is a story of survivorship, of a woman who endured several lifetimes' worth of adversity to have a happy, peaceful life with second husband Erwin Bach on a lake in Switzerland.

"She was relevant from almost the beginning of popular music in the late '50s/early '60s until the 2000s, when she retired," Lindsay says. "You look at all these major events along the way in popular music and she's there. ... Obviously everybody appreciates her as a singer but we hope to like slightly reintroduce people, so to speak, to her talent because she is just an absolutely incredible performer."

Excellence in hospitality.

DISCOVER FLORIDA'S FIRST LIGHTHOUSE

Where it all began...

In September of 1980, members of the Junior Service League of St. Augustine began the process of saving the St. Augustine Light Station, launching a campaign to restore the burned-out shell of the 1876 Keepers' House.

The League initiated the restoration of the tower, including the original first-order Fresnel lens, culminating in a relighting ceremony in 1993. Today, thanks to the JSL of St. Augustine and the local community, our nonprofit Museum welcomes over 200,000 visitors annually!

"Biography: "Stone Cold" Steve Austin" (A&E Network — new special, April 18)

A&E revives one of its most popular "brands" in eight new two-hour specials airing under the "Biography" banner. Produced in partnership with WWE studios, each of these presentations reveals personal stories behind the success of WWE's most memorable legends. The opener chronicles a man who became WWE's biggest star in the 1990s. His nickname notwithstanding, "Stone Cold" Steve Austin had a fiery personality that perfectly matched WWE's so-called "Attitude Era," transforming him into a pop culture icon who was inducted into the WWE Hall of Fame in 2009.

'Greek Freak' leads Bucks back from midseason slump

It wasn't that long ago the Milwaukee Bucks appeared to be a team in disarray.

A five-game mid-February losing streak had dropped them from near the top spot in the East and raised questions to whether Mike Budenholzer was the right coach for this team. But then the Bucks reeled off five straight wins to climb back up to third in the Conference and silence the doubters in the process. And just like that, the Bucks looked solid once again.

And leading the way, as always, was their two-time MVP big man Giannis Antetokounmpo. During the win streak, the man known as the "Greek Freak" was his usual dominant self only bumped up a notch, averaging 35.6 points, 13.8 rebounds, 5.8 assists, 2.0 blocks and 1.0 steals per game while shooting 55.0 percent from the floor.

His stalwart play was certainly on display in the Bucks' Feb. 28 home game against the Los Angeles Clippers.

Trailing 81-77 after three quarters, he took over in the fourth and scored 17 of the Bucks' final 22 points on perfect 6-for-6 shooting – including a clutch three-pointer – to lead Milwaukee to a 105-100 victory over the Clips, one of the top teams in the NBA. It also helped relieve something of a bugaboo for the Bucks, who had only won once this season when trailing or tied entering the final period.

Giannis and the Bucks get a national TV two-fer this week, a pair of home games against the Boston Celtics airing Wednesday and Friday, March 24 and 26, on ESPN.

Food fight! When meals become missiles in film

Show of hands – how many of you have ever been in an actual food fight?

We thought so. Neither have we.

It seems food fights are far more common on screen than in real life, a device used mostly for comic relief that involves no special effects and doesn't cost a lot to film, save for the choreography and the clean-up. And people remember food fight scenes, no matter how good or bad the movie was.

There's no denying it makes for good entertainment and the following are films where it was done to state-of-the-art effect.

“National Lampoon’s Animal House” (Tuesday, March 26, on Flix; Showtime on Demand): John Landis’ raucous 1978 comedy about the antics of a 1950s college fraternity contains a classic scene in which Bluto (John Belushi), his dining hall tray overloaded, takes a mouthful of mashed potatoes and asks his table mates “See if you can guess what I am now.” What happens next is what any collegian would agree is exactly what dining hall food deserves.

“Blazing Saddles” (Saturday, March 27, Ovation; streaming on Amazon): Often obscured by the campfire scene in Mel Brooks’ 1974 Western spoof is the climactic food fight sequence that literally breaks the fourth wall and spills over

into the commissary on the Warner Bros. lot, sending an out-of-character Harvey Korman falling out onto a Burbank, Calif., street and into a passing cab.

“Little Darlings” (Streaming on CBS All Access): A little spilled milk between frenemies Angel and Ferris (Kristy McNichol, Tatum O’Neal) escalates into a cafeteria-wide war of flying pancakes and oatmeal in director Ron Maxwell’s 1980 teen comedy about the denizens of a girls summer camp. Pay attention and you’ll recognize a 13-year-old Cynthia Nixon among the combatants.

“Hook” (Streaming on Netflix): The flying pastel-hued comestibles may be unidentifiable and unappetizing-looking in Steven Spielberg’s 1991 adventure comedy about Peter Pan’s (Robin Williams) quest to save his kidnapped children from Captain Hook (Dustin Hoffman). But it certainly makes for bold swatches of color that look great on the big screen.

“The Great Race” (Streaming on Amazon): An all-star cast including Jack Lemmon, Natalie Wood, Tony Curtis and Peter Falk wind up covered in marzipan and butter cream frosting when a misstep into a giant cake devolves into an all-out battle of airborne confections in a bakery scene in Blake Edwards’ 1965 action comedy about an epic automobile race.

“Gnomeo & Juliet” (March 26)

You-know-which Shakespeare classic gets a makeover with animated gnomes, but there's wit in the freely adapted script ... and both new and classic music by Elton John, also the executive producer of the picture. James McAvoy and Emily Blunt voice the title characters, who hold to tradition by falling in love despite being from feuding families. Michael Caine and Ozzy Osbourne also are heard.
