'Mr. Corman' fights disillusionment and himself in Apple TV+ comedy

Josh Corman is a man underwhelmed by life and himself.

As played by Joseph Gordon-Levitt ("Third Rock From the Sun," "Lincoln") in the Apple TV+ comedy series "Mr. Corman," which begins streaming Friday, Aug. 6, he's a 30-something born and raised in the suburbs of Los Angeles whose life hasn't turned out as he envisioned.

An artist at heart, his music career didn't amount to much and so he pays the bills by teaching fifth graders at a public school while sharing an apartment with his best friend Victor (Arturo Castro, "Broad City"). His relationship with his fiancee also has gone south and he struggles with feelings of anxiety, loneliness and depression, which he confides to his mother Ruth (Debra Winger, "Terms of Endearment"). On top of that, he also suspects he's not that great a person.

It's a lot for one young man to bear and Gordon-Levitt, who created the series, conceived of the character as an unlucky version of himself.

"It was sort of thinking about: What if just a couple of things were different?" the actor and San Fernando Valley native explains. "Like what if I hadn't found my partner yet? ... Or what if the art that I do hadn't panned out into a career? ... Or what if I had one good, healthy parent and one parent who was less healthy or problematic or causing chaos?

"And so sort of making some of these changes like that formed this character, who is in many ways just like me," he continues. "He walks like me and talks like me. He grew up where I grew up. He went to high school where I went to high school. He had many of the same thoughts and opinions and tastes that I do. But these certain things are

But, Gordon-Levitt explains, Josh does have things in his life to be thankful for but he just doesn't appreciate them. He has a good job in a noble profession for which he seems to have a flair, he has friends who care about him and his mother is always there to lend a sympathetic ear.

Toward that end, the interplay between Josh and Ruth comes across as very natural mother/son dialog and Gordon-Levitt credits Winger for being a brilliant actress and fitting right in.

"She looks like my mom and my mom's sister, my mom's cousins," he reports. "Like the Gordon women, she has a very similar essence to her. And she also grew up in L.A. the way I grew up in the Valley, in the suburbs of L.A., the way that I did.

"And yeah, she's just the perfect person for this," he continues, "and if anybody out there hasn't seen 'Terms of Endearment,' it's really some of the best acting that's ever been done in a movie and she won the Oscar for it and with good reason. And it's been such a delight to do this together with her."

In Focus

"Growing Up Animal: Season 1" (Disney+

— series premiere, Aug. 18)

What's Available NOW On

"Movie: The Artist"

This best-picture Oscar winner is an affectionate tribute to movie history, with director Michel Hazanavicius going so far as to make it a silent film. Jean Dujardin also earned a statuette as an actor who fears what the dawn of talking pictures may mean for his career — and who falls for a chorus girl (Berenice Bejo) whose star is rising. John Goodman also stars.

"Movie: Raiders!: The Story of the Greatest Fan Film Ever Made"

This 2015 documentary from firsttime filmmakers Jeremy Coon and Tim Skousen tells the story of three childhood friends — Chris Strompolos, Eric Zala and Jayson Lamb — who spent their teen years doing their own remake of their favorite movie, the 1981 actioner "Raiders of the Lost Ark," a production they wound up finishing as adults.

"Movie: The Keeping Room" From director Daniel Barber ("Harry Brown") comes this 2014 Western about three women who must fight to defend themselves and their homes from two

rogue soldiers who broke off from the advancing Union Army in the waning days of the Civil War. Brit Marling, Hailee Steinfeld, Muna Otaru and Sam Worthington head the cast.

"Movie: Mood Indigo"

From French filmmaker Michel Gondry ("Eternal Sunshine of the Spotless Mind") comes this surreal 2013 comedy drama about a young inventor (Romain Duris, "The Spanish Apartment") who seeks a cure for his lover (Audrey Tautou, "Coco Before Chanel"), who is afflicted with an unusual disease caused by a flower growing in her lungs. Gad Elmaleh, Omar Sy and Charlotte Le Bon also star.

tasty tv

BY GEORGE DICKIE

Turn to the Magnolia Network for innovative culinary content

There's a new kid on the foodie TV block and it's actually the work of someone with whom viewers are likely very familiar.

Magnolia Network, a joint venture of Discovery and Chip and Joanna Gaines, offers up a plethora of programming devoted to culinary pursuits, with everything from howtos and new ideas to cultural and historical perspectives, growing your own produce and even old favorites. And the good news much of it is streaming right now on discovery+ and the Magnolia Network app. Such as the following.

"Magnolia Table With Joanna Gaines" (Available now): Now in its third season after premiering on discovery+ in January, this family-oriented entry finds Gaines in her kitchen sharing her favorite recipes, revealing where they come from and why she keeps returning to them again and again.

"Family Dinner" (Available now): Andrew Zimmern ("Bizarre Foods") is your host for this series in which he visits families across the country to hear their stories and explore how our regional, historical and cultural heritages inform what and how we eat.

"Homegrown" (Available now): As the title suggests, this recently premiered offering follows Atlanta-based farmer Jamila Norman as she assists families in transforming their outdoor spaces into functional backyard farms and highlights the joys and benefits of growing your own food.

"The Artisan's Kitchen" (Available now): Professional baker and flour expert Bryan

Ford brings his Honduran heritage and New Orleans upbringing to bear on his creations in this series as he offers up ideas for new recipes as well as remixed classics.

"Zoe Bakes" (Available now): Pastry chef and cookbook Zoe Francois is your host for this series in which she breaks down the secrets of pastry chefs and home bakers and shows how to create beautiful and tasty confections right in vour own kitchen.

"Ranch to Table" (Premieres Friday, Aug. 6): This new series follows seventh generation California rancher and entrepreneur Elizabeth Poett as she runs her family's 14,000-acre ranch and creates regional dishes using her own fresh ingredients.

"For the Love of Kitchens" (Premieres Friday, Aug. 6): You can't have cuisine without a kitchen and in this series, Paul O'Leary, Helen Parker and Robin McLellan and their team of craftspeople design beautiful state-ofthe-art kitchens from their facility in a 16th century mill in the English countryside.

"The French Chef" (Available now on Magnolia app only): From the network's substantial library comes this classic 1962-73 series featuring legendary chef Julia Child as she sought to take the mystery and intimidation factor out of French cuisine, featuring recipes from her "Mastering the Art of French Cooking" bestseller and emphasizing the use of fresh and sometimes hard-to-find ingredients.
