True crime buffs probe 'Only Murders in the Building' in Hulu comedy mystery

A podcast and a resolve to investigate "Only Murders in the Building" bring together an unlikely mix of New York apartment dwellers in a so-named comedic murder mystery series upcoming on Hulu.

In the eight-episode series that begins streaming Tuesday, Aug. 31, a grisly murder in the Arconia, an exclusive Upper West Side apartment building, brings together three strangers: Charles Hayden Savage (Steve Martin), a veteran actor whose claim to fame is for playing a TV detective decades ago; Oliver (Martin Short), a New York stage director with major money problems; and Mabel (Selena Gomez), a mysterious young woman with a link to the victim and no apparent means that would enable her to reside at the pricey address.

All are true-crime aficionados and fans of the podcast "All Is Not OK in Oklahoma." Soon, the oddly matched trio resolve to probe the slaying and start a podcast "Only Murders in the Building" to document their investigation.

The series was created by Martin and John Hoffman ("Grace & Frankie," "Looking") with Short and Gomez also getting executive producer credits here.

"I'm actually a true crime – 'fan' is the wrong word, but I'm interested in it," Martin explains. "I'm interested in the solving of crime. I really like that. And so I had this idea ... . This is one the

most unusual things I've ever done because it actually has a plot. I usually don't do things with plots."

With a long partnership dating back to "Three Amigos!" in the mid-80s, "Only Murders in the Building" represents yet another effort from Martin and Short. The addition of Gomez, best known for her stint as Alex in Disney Channel's "Wizards of Waverly Place," to the pair of septuagenarians may seem an odd match, but Short reports that the 29-year-old actress fit right in.

"What I love about the end product of the show," Short says, "is the three different energies of the actors. I kind of play it very real. Steve goes way over the top. And Selena grounds everything in this kind of dry, hilarious delivery. And the combination, I think, is perfect. And it was a dream to work with this brilliant, young lady."

For her part, Gomez was understandably apprehensive to be working with two comedy legends but those nerves vanished quickly.

"I didn't know what to expect because sometimes I find that comedy people can sometimes be a little bit distant and so I didn't know what I was getting myself into," she explains. "And now I have like these two crazy uncles in my life that basically give me boy advice and I sing rap songs to them."

"Naughty rap songs, I have to add," Martin quips.

# Djokovic chases history at Flushing Meadows

One look at the men's field at the 2021 U.S. Open reveals a pretty startling fact - there will be three players on hand, barring injury of course, each with 20 career Grand Slam titles under their belt.

Yes, in Novak Djokovic, Roger Federer and Rafael Nadal, the tennis year's final major will have three legends each looking to add Slam No. 21 to their resumes on the hard courts of USTA Billie Jean King National Tennis Center in Flushing Meadows, Queens, N.Y. And considering the career record for Slams before this trio came on the scene was 14, set by Pete Sampras in 2002, that speaks to the level of play in men's tennis these days.

But for Djokovic, there is another mark at hand. With victories this year in the Australian and French Opens and Wimbledon, he can become just the third male player to win all four Slams in a calendar year, after Don Budge in 1938 and Rod Laver in 1969.

After winning the Aussie handily in February, the 34-year-old Serb was met by a worthy adversary in Paris in June, as he had to rally from two sets down against No. 5 seed Stefanos Tsitsipas in a dramatic comeback win. Then at Wimbledon, he took Slam No. 19 with a methodical takedown of Matteo Berrettini in the final in July.

After a disappointing showing at the Tokyo Olympics in which he failed to medal, the man known as "The Joker" took time off to be rested for his date with history.

And that comes Monday, Aug. 30, when Djokovic will take on all comers in the 2021 U.S. Open, which airs for the next two weeks on

BY GEORGE DICKIE

# Magnolia's 'Zoe Bakes' aims to make baking easy and fun

For many people, there is an intimidation factor to baking that puts them off. It can be too exacting, too scientific and therefore too easy to screw up.

Zoe Francois aims to change all that with "Zoe Bakes." Streaming currently on Magnolia Network, the half-hour series follows the trained baker and cookbook author in her Minneapolis home kitchen as she breaks down recipes, be it pie dough, biscuits or pizza, and shares tips and tricks designed to help the home baker create a consistent final product every time.

"I think people are maybe more intimidated by baking than anything else in the kitchen ...," Francois says. "And when I show them like the tricks that I know, all of a sudden like the world opens up and it's no longer scary and they're enjoying it."

One problem many people have when baking, Francois argues, is in the communication of recipes. Here, it's a case of words failing to capture the meaning as measurements of ingredients – like a walnut-sized piece of butter or a heaping cup of flour – can mean different things to different people and thus create room for error. So Francois advocates for the use of scales to level the playing field.

"They actually are easier to use," she asserts, "like there's less measuring cups and measuring spoons and all this stuff, it's easier and it's super-consistent. So as long as you have a really sound recipe, it's going to be consistent the first time you make it and the last time you make it because weights are always the same, whereas cup measures can really vary so much. So that's one of the things that was hammered home to me in culinary school, working in professional kitchens and now that I am trying to get every home baker to use."

Another favorite trick of Francois', which viewers saw in the premiere episode, is the use of vodka in pie dough, which can be a tricky conconction for a lot of home bakers. Here, she uses the popular liquor as a substitute for adding more water, which can create gluten and make the dough tough.

"You want more liquid in there so that you can roll out the dough easily and it's not crumbly and cracking," she says. "If you add vodka, you get more liquid without developing any gluten and it tenderizes the dough, so it's sort of a win in so many directions.

"And you have vodka," she adds with a laugh.
